

Technical University of Munich TUM School of Management

Welcome Information Session

Bachelor in Management & Technology
Summer Semester 2026

Munich, April 08, 2026

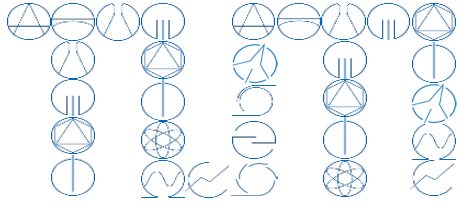

Agenda

1

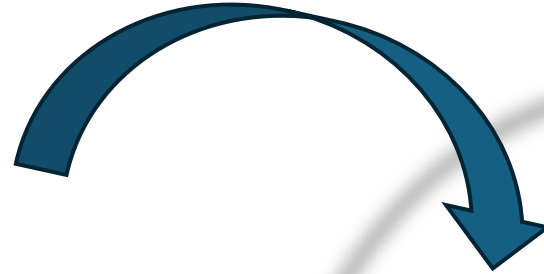

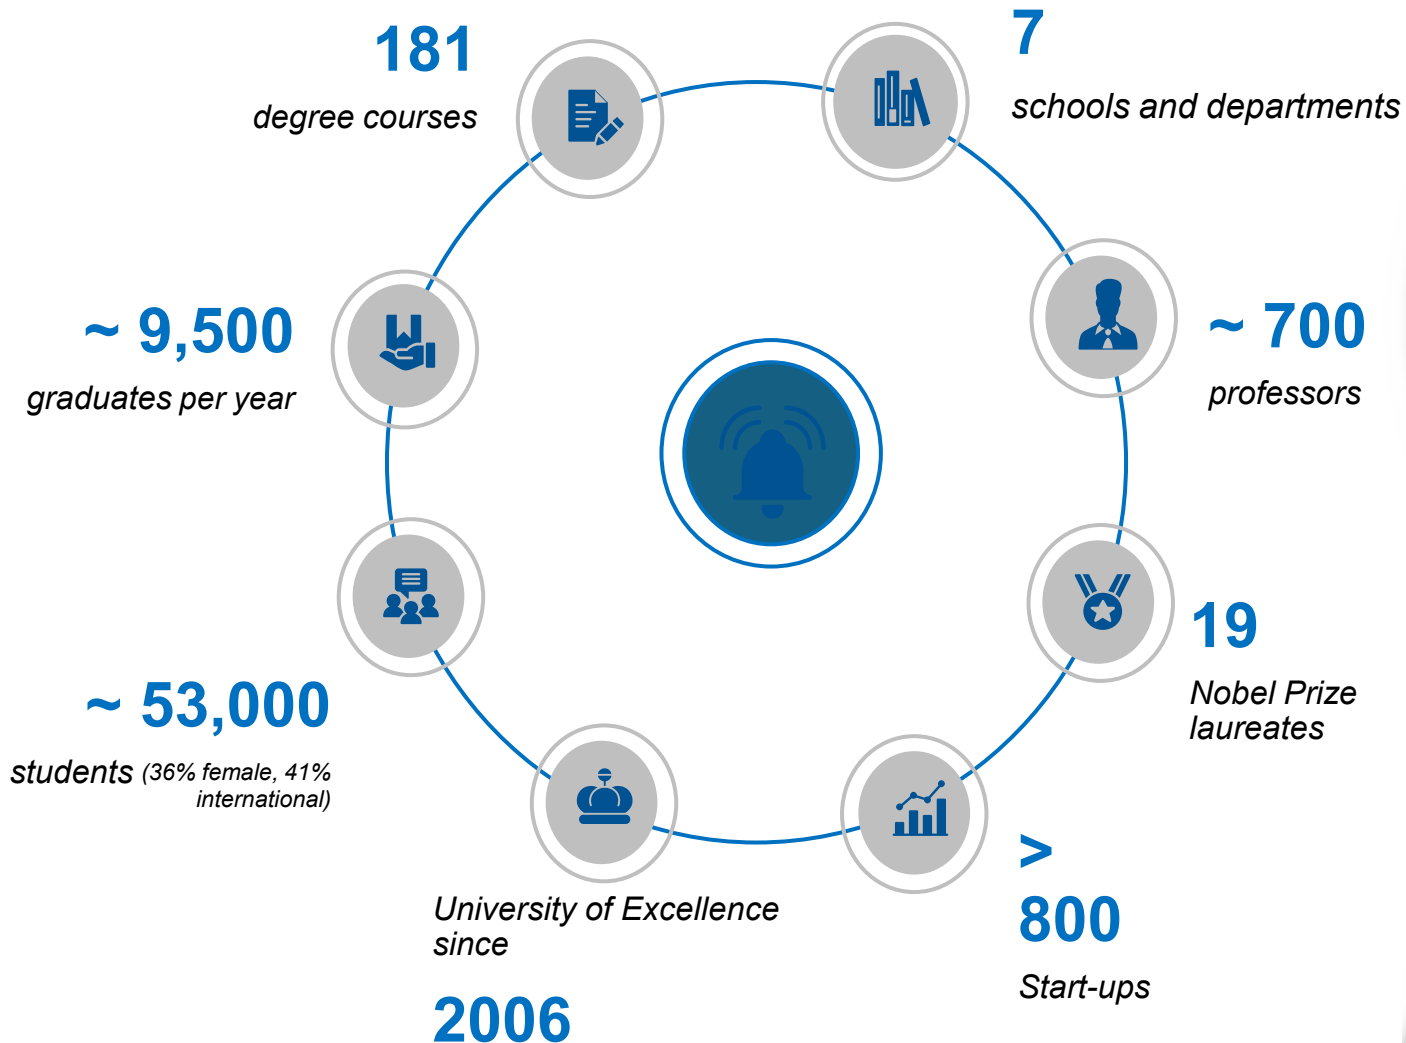

Welcome to TUM School of Management and the Bachelor's program

2

Specific information on the program & Q&A

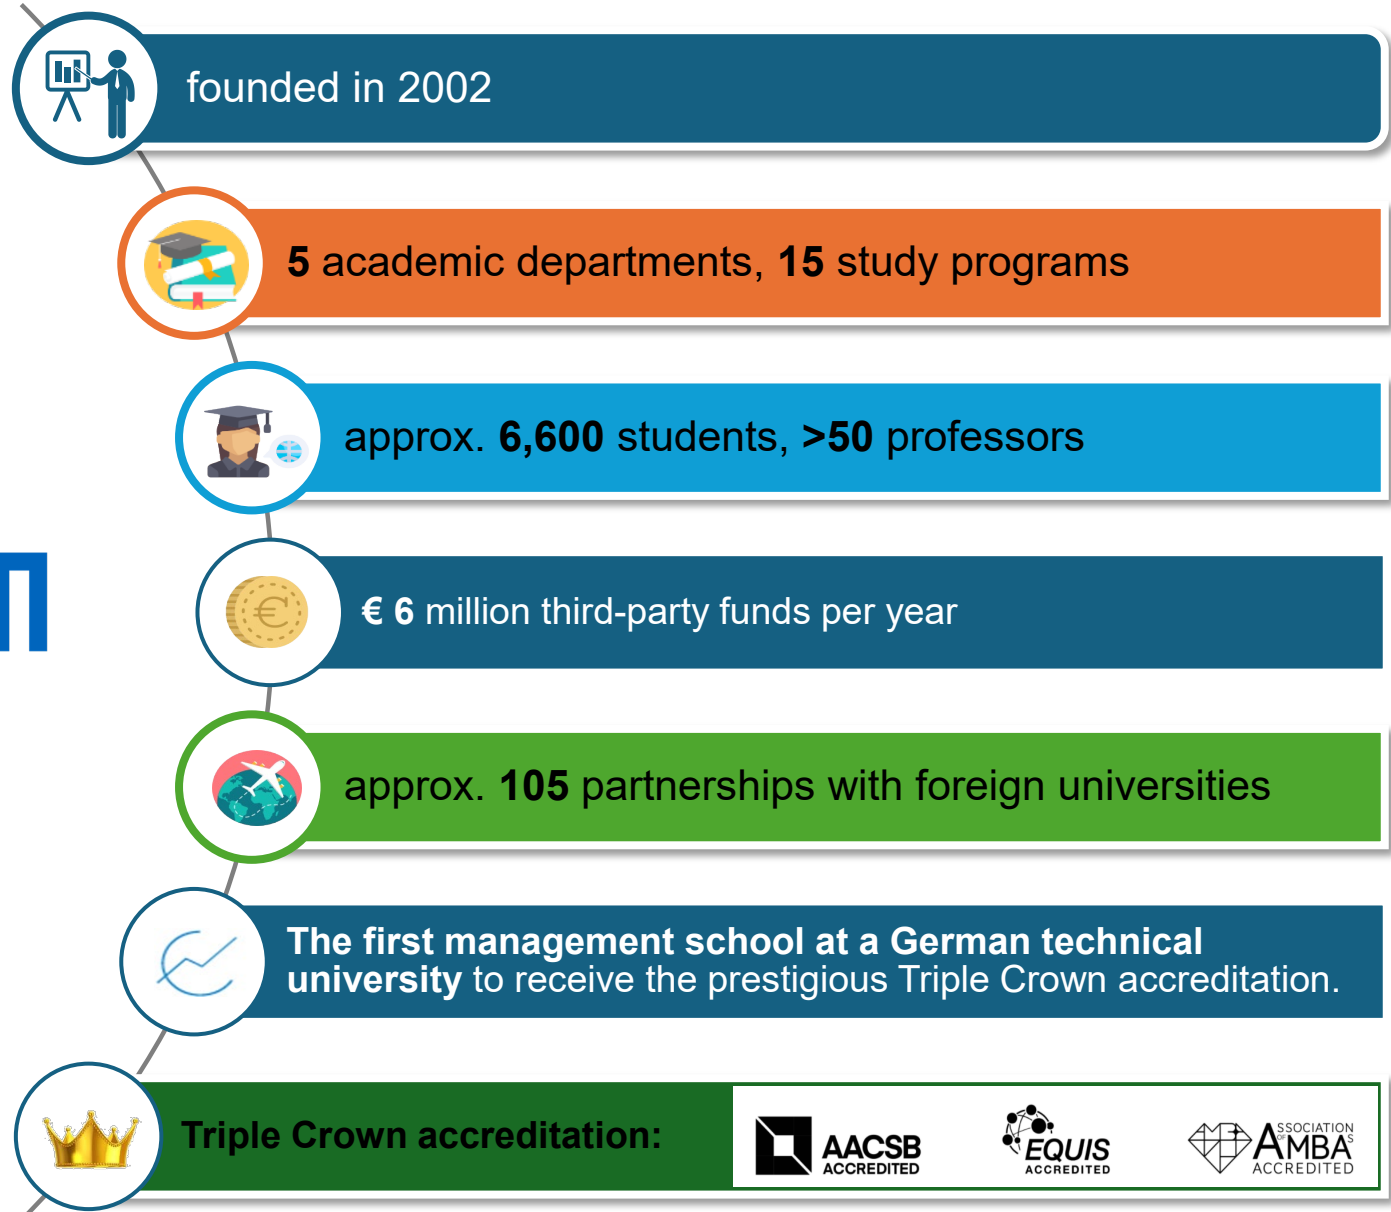

Facts & Figures

- TUM School of Computation, Information and Technology
- TUM School of Engineering and Design
- TUM School of Natural Sciences
- TUM School of Life Sciences
- **TUM School of Management**
- TUM School of Social Sciences and Technology
- TUM School of Medicine and Health

TUM School of Management
Technical University of Munich

Campus Etiquette

- Handle TUM equipment with care
- Treat TUM staff respectfully
- Dispose of trash properly
- Do not block a seat in the study rooms if you don't need it
- Take all personal belongings when leaving the study rooms

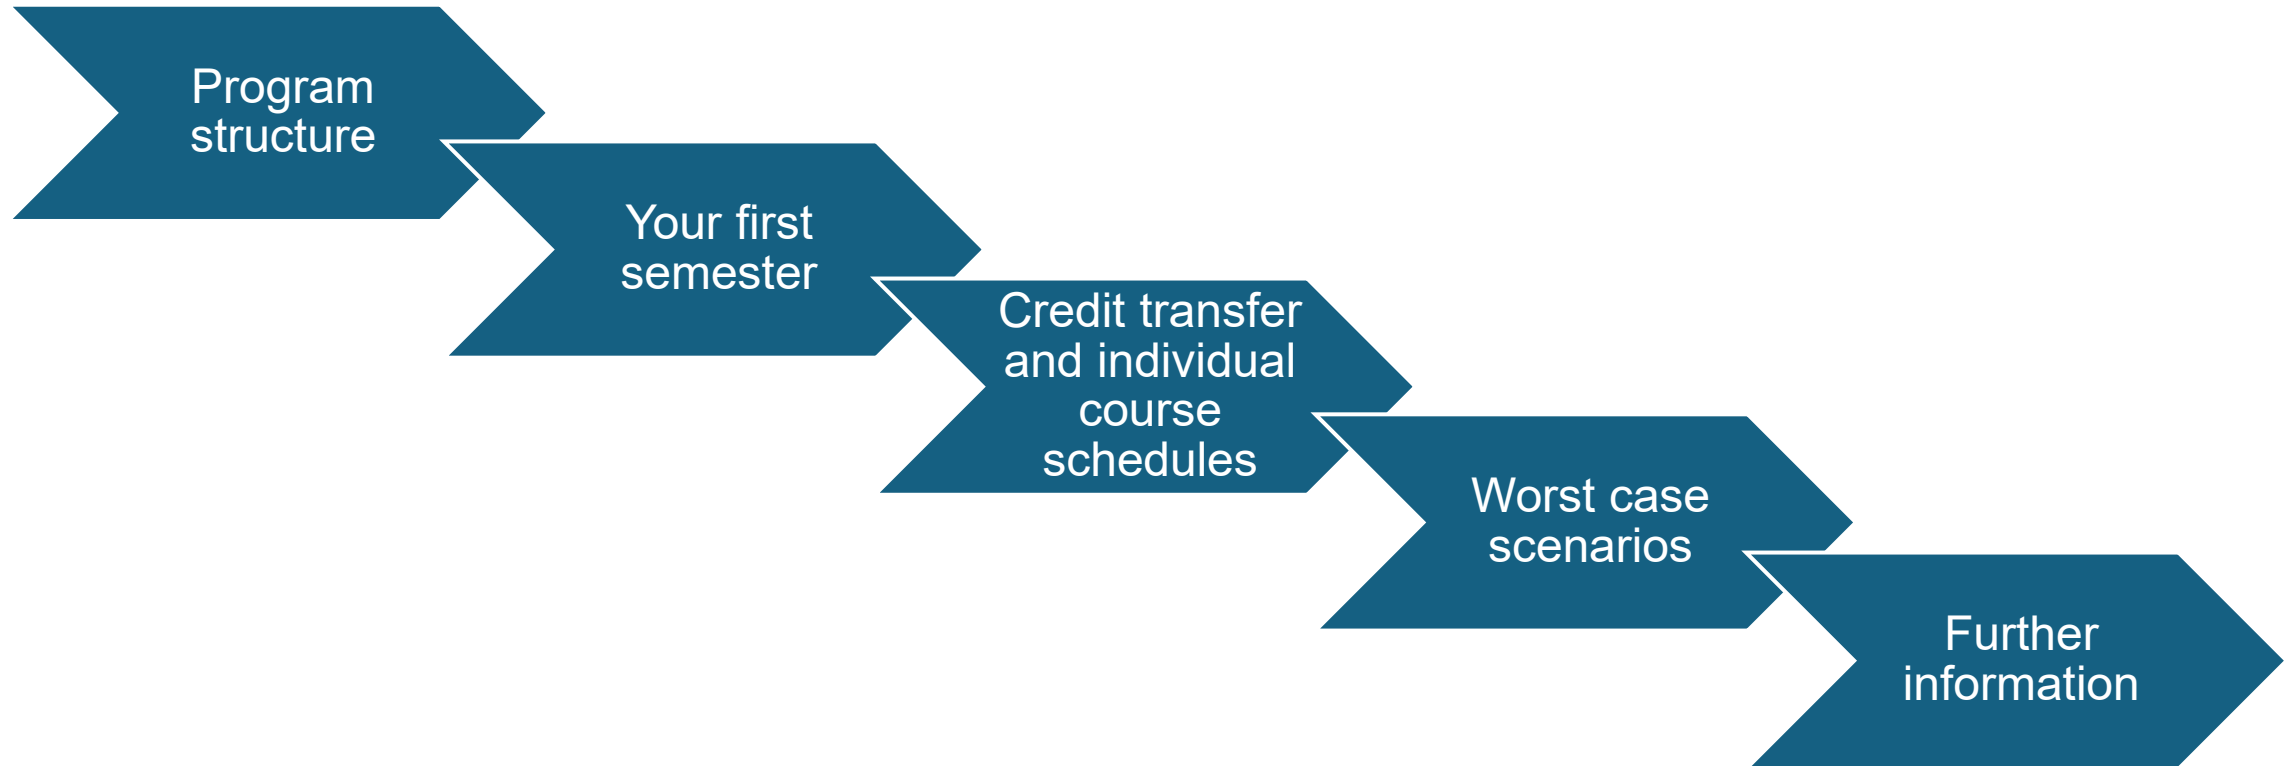

OUR CODE OF CONDUCT

The Code of Conduct is a guideline to ensure a respectful and enjoyable environment at TUM School of Management.

Aligned with the school's mission, vision, and strategy, we commit to the highest ethical standards in personal and collective behavior. [Learn more here](#)

Agenda

Agenda

Bachelor's Program in Management & Technology (180 Credits – 30 Credits/Semester)

Electives in Management & Technology Elective modules (24 Credits)

Deeper specialization in technology and/or in the following business specializations:

- Finance & Accounting
- Innovation & Entrepreneurship
- Marketing, Strategy & Leadership
- Operations & Technology
- Economics & Policy

Basics in Business

Required modules (48 Credits)

- Foundation of Entrepreneurial Business
- Introduction to Business Ethics
- Production and Logistics
- Applied Econometrics
- Marketing and Innovation Management
- Operations Research & Decision Analysis
- Financial Accounting
- Cost Accounting
- Investment and Financial Management

Specialization in Technology

Compulsory/elective modules (42 Credits)

Selection of one of the following subjects in Engineering / Natural - or Life Sciences:

- Mechanical Engineering
- Electrical- and Information Technology
- Chemistry
- Informatics
- Computer Engineering (100% English)
- Medicine
(selection process, limited number of places)

Basics of Mathematics and Methodology

Required modules (15 Credits)

- Mathematics in Natural and Economic Science 1
- Introduction to Data Science and Statistical Thinking
- Machine Learning for Business Analytics

Bachelor's Thesis

Required module (12 Credits)

Communication Skills

Required module (3 Credits)

Project Studies

Required module (12 Credits)

Basics in Economics

Required modules (12 Credits)

- Economics I
- Economics II

Basics in Law

Required modules (12 Credits)

- Business Law I
 - Business Law II
- or
- Wirtschaftsprivatrecht I
 - Wirtschaftsprivatrecht II

Bachelor in Management & Technology

Information on ECTS

- The **European Credit Transfer and Accumulation System (ECTS)** is a standardized system used across European universities to measure and compare student workload and academic progress.
- You can earn ECTS credits by completing modules (seminars, courses, lectures)
- Recommended credits per semester are 30 ECTS.
- ECTS allows **easier mobility between universities**, helping students transfer credits when studying abroad or changing institutions.
- **1 ECTS credit \triangleq 30 hours of student workload** (including lecture or seminar time, self study and preparation time and time for the exam) i.e. for a **6 credit** module **180 hours** of workload can be expected.

Ideal study plan

BASICS	SEMESTER 1	SEMESTER 2	SEMESTER 3	SEMESTER 4	SEMESTER 5	SEMESTER 6
Mathematics/ Methodology	Mathematics 6 Credits	Statistics 6 Credits	Business Analytics 3 Credits			
Economics	Economics I 6 Credits	Economics II 6 Credits				
Management	Management 18 Credits	Management 12 Credits	Management 6 Credits	Management 12 Credits		
Law			Law I 6 Credits	Law II 6 Credits		
Specialization in Technology		Technology 6 Credits	Technology 12 Credits	Technology 12 Credits	Technology 6 Credits	Technology 6 Credits
Elective area with mobility option					Electives in Mgmt. or Techn. 24 Credits	
Interdisciplinary qualifications			Communication Skills 3 Credits			
Project Studies/ Thesis					Project Studies 12 Credits	Bachelor's Thesis 12 Credits
Credits	30	30	30	30	30	30
	= 180

Specialization in Technology - Medicine

Attention

Limited number of participants (48)

This is the only specialization in technology which you have to apply for.

How to apply?

The application can be submitted once a year for the following summer semester at the latest by the end of the first lecture week of the summer semester.

Main criteria for the selection

First, all applicants are considered who have successfully accomplished the compulsory modules of the first semester: “Foundations of Entrepreneurial Business”, “Business Ethics”, “Operations Research & Decision Analysis”, “Financial Accounting”, “Economics 1 – Microeconomics” and “Mathematics in Natural and Economic Science 1”.

What if?

If more applicants fulfill these requirements, they will be ranked according to the average of the module grades in these compulsory modules.

If there is equality, the places will be given by lot.

Important information

Detailed information can be found in the legal regulations (Bachelor's [download center](#))

Agenda

Course schedules

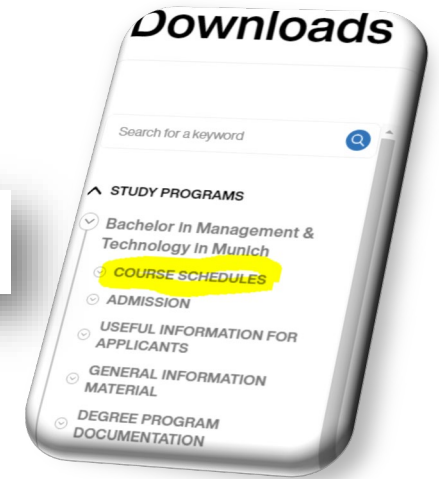

For students who are new to university studies:

You don't know how to plan your first semester?

For all newcomers to the university, we have already created pre-made [ideal course schedules](#), which we highly recommend to you for your first semester.

- The recommended course schedules can be found here:
<https://www.mgt.tum.de/programs/bachelor-management-technology/munich/for-current-students#c1608>
- or in the [download center](#) under „Course schedules.“

PLEASE DO NOT USE THE SEMESTER PLAN IN TUMONLINE – it's not always correct!

Course schedules

For remaining course schedules of other semesters please click here.

 BMT (Munich) course schedule SS 26, 2nd Semester

 BMT (Munich) course schedule SS 26, 4th Semester

 BMT (Munich) course schedule SS 26, 6th Semester

Planning your schedule, courses & exams

- **As a general rule for every student:**
- There are separate registration procedures for courses and exams. To gain credits, you have to register for the exam*!
- **Especially for students who bring credits from previous studies:**
- Check the Curriculum Support for matches to the courses you have already taken
- View module descriptions
- Submit your requests for recognition (see later)
- Build a schedule from courses to be taken from freshers' schedules and fill in gaps with third semester, language, or soft skills courses.

***IMPORTANT: Do not miss the exam registration period!
For summer semester 2026 the exam registration period will be:
May 18, 2026 – June 30, 2026**

- Management and Technology
 - Basics
 - Basic Courses (18 Cr have to be passed by the end of the 2nd semester)
 - Operations Research and Decision Analysis
 - Economics I - Microeconomics
 - Mathematics in Natural and Economic Science 1
 - Introduction to Data Science and Statistical Thinking
 - Basics in Management
 - Introduction to Business Ethics
 - Foundations of Entrepreneurial Business
 - Production and Logistics
 - Applied Econometrics
 - Marketing and Innovation Management
 - Financial Accounting
 - Cost Accounting
 - Investment and Financial Management
 - Basics in Economics
 - Basics in Law
 - Mathem.- and methodological basics
 - Specialization in Technology
 - Specialization in Technology: Chemistry
 - Specialization in Technology: Informatics
 - Specialization in Technology: Electrical Engineering and Information Technology
 - Specialization in Technology: Mechanical Engineering
 - Specialization in Technology: Computer Engineering
 - Specialization in Technology: Medical Science
 - Project Studies
 - Electives in Management and/or Technology
 - Communication Skills
 - Bachelor's Thesis

Agenda

Credit
transfer
and
individual
course
schedules

- ✓ I have already studied somewhere else - how does credit transfer/ a recognition of courses work?
- ✓ What does my schedule look like having obtained recognition for first semester modules?

Recognition of Courses/Credit Transfer

Janine Rothenburger

Sebastian Berger

Mika Schulz

Claudia Schüssler

- **Credit recognition from previous studies – only one application for recognition during the first year of study!**
- Please have a look at our [Download Center](#) to understand the process of recognition / credit transfer. All recognitions will be done through the platform PIM (Platform for Inter*national Student Mobility). You can find a user guide on PIM in the Download Center.
- **Contact: grademanagement@mgt.tum.de**

Recognition of Courses/Credit Transfer

- The relevant chair decides which courses can be recognized.
- We cannot influence this process, and it may take some time.
- **If you plan to get more than 29 credits or more than 5 modules recognized, please contact your Program Manager during consultation hours**
- **Are you sure that your credits will be recognized?**
 - Skip this module and register only if your request for recognition is rejected.
- **Not sure whether your credits will be recognized?**
 - Please register and attend the course.

Students may register for courses and exams of higher semesters (see course schedules and TUMonline). **You are welcome to contact your Program Manager during the open consultation hours to get feedback on your planned, individualized schedule.**

Agenda

Worst case scenarios

- ✓ What happens if I can't cope with the workload?
- ✓ Will I get deregistered after failing the exams?

General Academic and Examination Regulations – Student's Progress

- In order to complete the degree program within the regular length of study, students should take 30 credits per semester.
- It is not recommended to take less than 22 credits per semester.
- Students' progress is monitored once per semester (Study Progress Monitoring).
- **For your Study Progress, there are Program specific AND TUM-wide hurdles!**

Please contact your Program Manager if you need advice on how to meet these requirements.

Program-Specific Academic and Examination Regulations (B.Sc. Management & Technology)

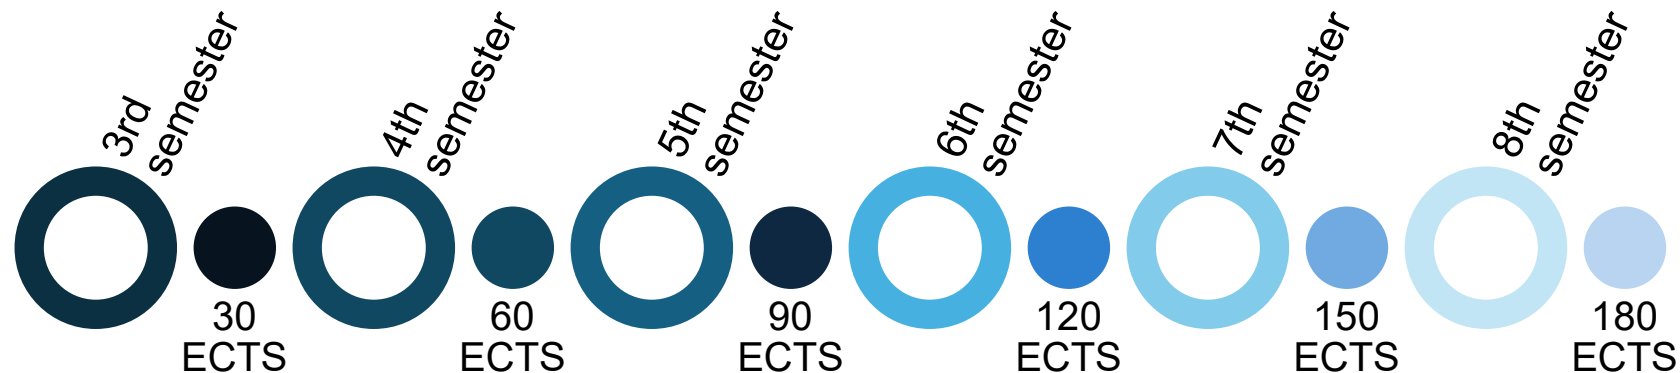

By the **end** of the **second semester**, students must have passed at least **three of the four** following exams: **Mathematics I, Operations Research and Decision Analysis, Statistics, Economics I.**

Winter Semester	Summer Semester
<ul style="list-style-type: none">• Mathematics I (regular & retake exam)• Operations Research and Decision Analysis (regular exam)• Economics I (regular exam)	<ul style="list-style-type: none">• Introduction to Data Science and Statistical Thinking (regular & retake exam)• Operations Research and Decision Analysis (retake exam)• Economics I (retake exam)

Exception: Students doing a lateral entry (“Quereinstieg”) and starting in the summer semester have an **extended deadline until the end of the third semester**

Study Progress Regulations: TUM-wide hurdles

- If students do not earn the required number of credits by the end of the semester, they will be considered to have failed the modules and will be **officially withdrawn** from the University.

Good to know:

Failed exams can be retaken as many times as needed until they are passed as long as the study progress is maintained *(except in the case of academic misconduct and the final thesis)*.

I don't feel well enough to take an exam – what should I do?

- In case of illness please do NOT participate in the exam, **provide a medical certificate instead!**
- **The medical certificate must specify the period** — start and end date — of the illness-related withdrawal and **state the reasons for withdrawal**. Further information: <https://www.tum.de/en/studies/during-your-studies/organizing-your-studies/examinations/withdrawing-from-examinations-medical-certificates>.
- Please send your medical certificate to the Grademanagement team (grademanagement@mgt.tum.de). You will then be de-registered from the exam with a valid reason (marked with “Q” in TUMonline).
- If you feel sick **during the exam**, please **notify the examiner immediately (and see a doctor)!**
- Please be aware that if you decide to take an exam despite your bad health condition, this is a **conscious risk decision (“Bewusste Risikoübernahme”)** on your part and you will have to accept the result of the exam. In such a case, you will not be able to submit a medical certificate afterwards.

Buddy Program at TUM School of Management

TUM School of Management has a Buddy Program to **help our newcomers** get settled in at TUM School of Management and in Munich.

The Buddy Program available for freshers matches a group of freshers with a TUM Buddy who **offers them support and help during their first semester** at TUM School of Management. If you participate in the TUM School of Management Buddy Program for freshers, you will be assigned to one buddy from a higher semester of your study program together with fellow freshers. This way, you won't only profit from the experience of a student from a higher semester, but also network amongst your fellow classmates before lectures start.

We welcome all our freshers to register – regardless if you are an international or German student or if you are already in Munich or still in your home country/city.

German students are invited to join our buddy program to help foster a welcoming environment for international peers, gain fresh perspectives from diverse cultures, and develop a global network without leaving their home country.

As a fresher you can sign up for the Buddy Program for freshers using this link:
[Buddy Program](#)

Register soon and get in touch with students before lectures start!

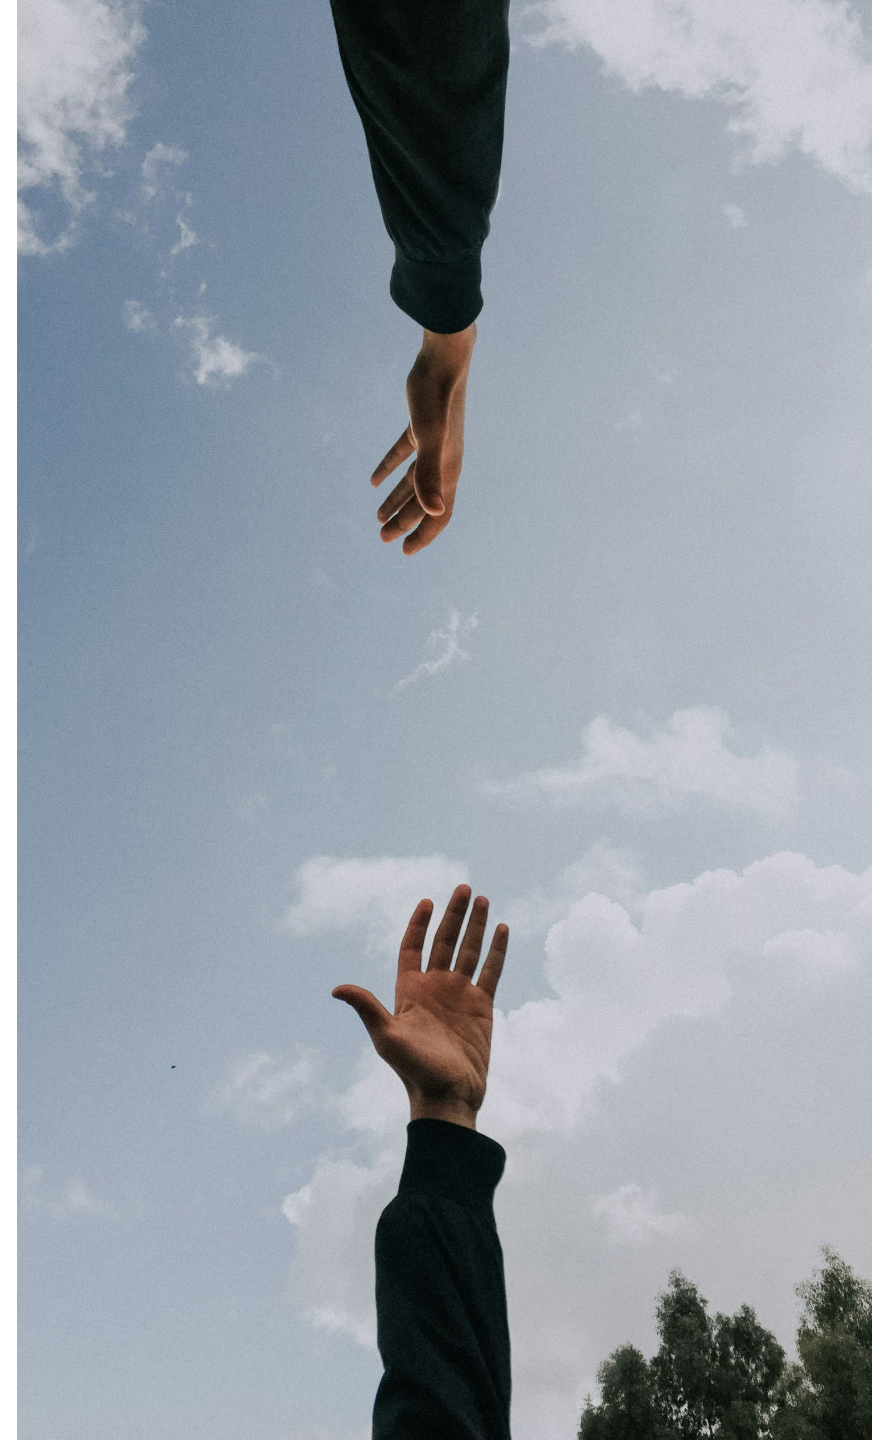

Studying with Special Needs – disadvantage compensation during exams

If you have a chronic disease/impairment/disability, you can apply for a disadvantage compensation in exams to enable you to study with equal opportunities.

How to apply:

- You can find all relevant information and documents on disadvantage compensation [here](#).
- Send the application form together with a valid doctor certificate to the Examination Board (examinationboard@mgt.tum.de).
- We recommend using only your TUM email account for the secure transmission of personal data (e.g. medical certificates) via email. Using other email accounts may compromise data protection and is done at your own risk. Alternatively, you can send medical certificates by post to the following address:
TUM School of Management
Examination Board
Arcisstraße 21
80333 Munich
- Send your request at least 4 weeks prior to the exam.
- Once your disadvantage compensation has been granted: please contact the chair responsible for each exam at least 2 weeks prior to the exam

Questions? Please find additional information from the TUM Central Administration [here](#) or contact the Examination Board.

TUM Center for Study and Teaching (TUM CST)

- Support and assistance for **general questions, enrollment, leave of absence, graduation**
- Questions regarding **health insurance** and **Student Card**
- **Service Desk** at the TUM downtown campus:

Have employers find you!

The screenshot shows the TUM Event & Career Center website. At the top, there are navigation links: "Jobs finden", "Unternehmen entdecken", "Events", and "Karrieretipps". The main header includes the TUM logo and "Event & Career Center" with the tagline "empowered by #JOBTEASER".

On the left, a user profile for "Lea Dunkelmann" is displayed, showing her role as "Admin @TUM Management Event & Career Center" and her education: "Bachelor, 2024, Bachelor in Management & Technology - TUM Campus München". Below the profile are navigation options: "Studien", "Lebenslauf", "Gesprochene Sprachen", and "Suchkriterien". A "Mein Profil bearbeiten" button and a link to "Mein Profil gut ausfüllen" are also present.

The main content area features a "1-Klick Bewerbung" banner with the text "Fügen Sie Ihren Lebenslauf zu Ihrem Profil hinzu und bewerben Sie sich mit einem Klick!". Below this is an "Event & Career Center Event-Highlight" section for an event on October 10th: "AI@WORK - How AI is changing leadership, work and collaboration". The event details include "Vortrag / Präsentation", "Zentralgelände", and "Ende der Einschreibung am 09 Oktober". An "Anmelden" button is provided.

At the bottom of the main content area, there is a "Unternehmens-News" section for a webinar: "WEBINAR: Finanzielle Intelligenz - Kapitalanlagen als Student", organized by "A.S.I. Wirtschaftsberatung AG".

On the right side, there are several sections: "Partnerunternehmen TUM Management Event & Career Center" with logos for Philips, Amazon, Check24, TUM, and Knaufl; "Nützliche Links" with a "Mehr anzeigen" button; and a list of links: "Alumni Member Database", "TUM School of Management", "Student Council", and "TUM Career Service".

**Femtoring Circle:
Dein Group Mentoring.**

Studium bald geschafft – und dann? Lass es uns gemeinsam herausfinden. Erkenne deine Stärken durch Trainings in deiner persönlichen Mentoring-Gruppe und lerne, wie du sie für den Berufseinstieg nutzen kannst. Und vielleicht entdeckst du dabei auch deine Leidenschaft für die Beratung. Bewirb dich bis zum 3. Dezember.
