Mastering Problem Solving Techniques

- **Training:** we will focus on three core elements being structuring, prioritizing and synthesizing. In the first part of the session, theoretical input will be given.
- **Insights:** McKinsey consultants will share real-life examples of how the taught problem-solving skills are applied in their daily work at McKinsey.
- **Practice:** During several break-out sessions, you will have the opportunity to apply and practice what you have learned and get to know McKinsey!

The event will be held in German.
